Art Outside the Box is a public art program of the **City of Coronado** and the **Coronado Cultural Arts Commission** designed to transform **Caltrans** traffic control boxes on Orange Avenue and the Silver Strand, into distinctive works of art, creating a more vibrant, attractive community.

Phase II wrapped six signal boxes located along the Silver Strand Scenic Highway. The program highlights the work of local photographers and features images of flora and fauna indigenous to the Silver Strand.

This program directly involved Coronado residents and volunteer members of the Silver Strand Beautification Committee.

Please plan on attending, meet the team that worked on Phase II of this project and celebrate the wrapped boxes that now add to the natural beauty of the Silver Strand.
